

## BOPP 50mµ, white glossy

Glassine paper, permanent

# 7850 K5d P6

### **Technical Product Information**

	Grade characteristics						
	Description	Biaxial oriented polypre	Biaxial oriented polypropylene film, white glossy, cavitated				
	Application	Decorative labels for cosmetics, food, chemistry etc.					
Coating With topcoat							
F	Approvals	Complies with EU-Regulations: Packaging 94/62/EC; Heavy Metal, PBB and PBDE 2003/11;					
i I	Remarks	Suitable for letterpress foil stamping	Suitable for letterpress, flexo-, offset, gravure and screen printing as well as hot and cold oil stamping				
m				11.5	<b>-</b>		
	Physical properties		Value	Unit	Test method		
	Caliper		50	μm	ISO 534		
	Stretch at break md		-	%	DIN 53455		
	Tear resistance md		-	N/mm²	ISO 1924/1		

#### A Description

- d Permanent adhesive P6:
- h Copolymeric, acrylates, solvent free, excellent resistance to UV-light and ageing, complies with EN 71/3
- e (application on toys) and European packaging directive 94/62/EC (heavy metals). All adhesives are approved for
- application on dry, moist and fatty food with a reduction factor 3 (ISEGA certificate).

i	Physical properties	Value	Unit	Test method
v	Adhesion P6 $\rightarrow$ permanent	14 ± 6	N/25mm	FTM 1
е	·			24h on glass

- Description
- Liner K5d
- L Super-calendered high density glassine paper, white, with high tensile strength, excellent die-cutting properties,
- i solvent free siliconization for highest labelling velocities
- n

е	Physical properties	Value	Unit	Test method
r	Substance	63	g/m²	ISO 536
•	Caliper	55	um	ISO 534

Storage and application data	
Recommended processing temperature	min. + 5°C
Product application temperature	- 30° up to + 90°C
Life expectancy	2 years
Shelf life at 23°C / 50% r.h.	2 years in original packing *

#### Warranty

INTERCOAT materials are manufactured according to highest quality standards and pass stringent quality controls prior to despatch. Any material showing an evident defect of manufacturing will be replaced promptly without charge. The wide range of different applications does not allow to test all possibilities of employment. All statements, technical information and recommendations are based on tests and practical experiences and believed to be reliable but do not constitute a guarantee or warranty. Preliminary tests are recommended for each new application. For any need of advise or technical support the INTERCOAT technical department will be pleased to assist.
